

NIKUNJ DETHARIYA

Senior Flutter Developer · 5+ Years Flutter · 10+ Years Mobile Engineering (Native Android)

Rajkot, Gujarat, India | +91 9033-670774 | dethariyanikunj@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Mobile Engineer with 10+ years in mobile engineering, including 5+ years hands-on Flutter (Android, iOS, and Web) and 5 years Native Android (Java/Kotlin), delivering 20+ production apps across fintech, healthcare, edtech, real estate, travel, and social domains. Deep expertise in Clean Architecture, BLoC/Cubit state management, white-label multi-brand platforms, CI/CD automation, and Flutter performance optimization. Leverages AI-powered tooling to accelerate development velocity across code generation, refactoring, and automated testing. Proven record leading distributed teams and delivering enterprise-grade solutions for clients including Comviva (Tech Mahindra).

TECHNICAL SKILLS

Languages	Dart, Kotlin, Java, XML
Frameworks	Flutter (Dart), Native Android SDK, iOS via Flutter, Responsive Design, Localization (i18n)
Architecture	Clean Architecture, MVVM, MVC, SOLID Principles
State Management	BLoC / Cubit, Provider, GetX
CI/CD & DevOps	Azure DevOps (Pipelines), GitHub Actions, Jenkins, Shorebird OTA, Flavors / Build Variants, Play Store & App Store Publishing
Backend & Cloud	Firebase (Auth, Firestore, FCM, Crashlytics, Remote Config), REST APIs, JSON Serialization, Socket.io, API Integration
Payments	Stripe, Razorpay, Paytm, RevenueCat (In-App Subscriptions)
SDKs & Libs	Twilio, Linphone VoIP, OneSignal, Mixpanel, FlutterFlow, Flutter Flame, Mason/Bricks
Performance	Android Profiler, Dart DevTools, Flutter Performance Overlay
Testing	Unit Testing, Widget Testing, Integration Testing, Firebase Test Lab, Mockito, Mockoon
Version Control	Git, GitHub, GitLab, Bitbucket, AWS CodeCommit, Pull Request, Code Reviews
Tools	Android Studio, Xcode, Figma, Azure DevOps (Boards), Jira, ClickUp, Trello, Agile/Scrum
Code Quality	SonarQube, Checkmarx, Firebase Crashlytics
AI-Assisted Development	ChatGPT, Claude, Gemini, Antigravity

PROFESSIONAL EXPERIENCE

Flutter Developer | Helixbeat | (Remote)

Jun 2026 – Jul 2026

- Developed Flutter Web appointment booking workflows for a healthcare platform, including patient scheduling, provider availability, and booking confirmation flows.
- Implemented a patient creation module supporting both self-service registration and provider-assisted patient onboarding with form validation and workflow integration.

Flutter Developer | Digi App Labs | Canada (Remote)

Jul 2025 – May 2026

- Architected and maintained white-label Flutter framework supporting 30+ brands from a single codebase using build flavors and modular plugin architecture - 90%+ module reuse, per-brand delivery reduced from 6 weeks to under 1 week.
- Built and released cross-platform apps for Android and iOS with shared business logic, responsive layouts and multi-language localization — cutting QA cycles by approx. 50% vs native dual-stack.
- Managed CI/CD pipelines in Azure DevOps for fully automated Android and iOS release builds with zero manual intervention.

- **Architected and shipped 10+ production Flutter and Native Android apps** across fintech, edtech, real-estate, and travel domains.
- **Owned the complete mobile delivery lifecycle** across 8-year tenure: requirements, system design, development, QA, store release, and post-launch analytics.
- **Integrated 10+ third-party SDKs** — Firebase, Stripe, Razorpay, RevenueCat, Twilio, OneSignal, Socket.io, Mixpanel.
- **Optimized app performance** using Android Profiler and Dart DevTools — reduced average cold-start time by 35% and maintained crash rate below 0.5% across flagship apps.
- **Mentored 5+ junior developers; 4 promoted to mid-level within 18 months** through structured code reviews and architecture pairing sessions.

- **Built 3 Native Android surveillance apps** with real-time video monitoring and remote control using Java
- **Owned the full build-to-publish pipeline:** architecture, development, testing, and Google Play Store deployment

KEY PROJECTS

MakeMyMembership — *Loyalty & Offers Platform · Flutter · Sole Developer* [Play Store](#) | [App Store](#)

- **Cross-platform loyalty app** with QR-based deal redemption, real-time notifications, personalised membership tiers, and vendor browsing across hotels, restaurants, spas, and entertainment venues.
- Stack: Flutter · Firebase · Razorpay · REST APIs · GetX

Saarathi Pedagogy — *EdTech Platform · Flutter · Contract (Saarathi Pedagogy)* [Teacher](#) — [Play Store](#)

- **Dual-app EdTech suite with 20K+ installs:** Student app — digital textbooks, interactive quizzes, AI-evaluated homework (draw/write/photo); Teacher app — AI-generated assignments, automated grading, performance analytics.
- Stack: Flutter · Firebase · AI/ML APIs · REST · GetX

Brooon — *Real-Estate Broker Platform · Flutter* [Play Store](#) | [App Store](#)

- **Property marketplace for real estate brokers** with automatic property-to-inquiry matching — buy/sell/lease listings with buyer profile management and location-based search.
- Stack: Flutter · Google Maps API · Firebase · Provider

Profi — *Financial Project Management · Flutter + Firebase · Enterprise (Internal) · Sole Developer*

- **Milestone tracker for Admins, BDMs, and PMs:** dynamic status workflow (pending/paid/unpaid), event-history audit log, push notification reminders — built on Firebase Auth + Firestore.
- Stack: Flutter · Firebase Firestore · BLoC / Cubit

My Bank — *Enterprise Mobile Banking · Native Android · Contract (Comviva / Tech Mahindra)* [Play Store](#)

- **Tier-1 enterprise banking app:** account overview, FD/RD management, fund transfer, cardless cash withdrawal, cheque book, statements, card management, loans, and wallet.
- Stack: Native Android (Java/Kotlin) · REST APIs · Security/Encryption layer · MVVM

Flamingo Transworld (Brahma/Buddha) — *Travel Platform · Native Android* [Play Store](#)

- **A–Z travel assistance app** for one of India's largest tour operators — destination discovery, itinerary planning, and booking for global routes.
- Stack: Native Android (Java) · Socket.io · Linphone VoIP · Firebase

AWARDS & RECOGNITION

Ace Card Award — Outstanding project delivery

Comviva (Tech Mahindra) · 2021

Performer of the Quarter — Q4 2018 — Top performer across engineering org

Wings Tech Solutions

EDUCATION & LANGUAGES

Bachelor of Engineering — Computer Engineering **CGPA: 8.13 / 10**

Gujarat Technological University · 2011 – 2015

English (Professional Working Proficiency) · **Hindi** (Fluent / Native) · **Gujarati** (Native)
